EXPERIENCE

02

2019.02 - Present

Upwork - Freelance

As a freelancer, I have learned to manage my time effectively, communicate with clients, and collaborate with remote teams to deliver high-quality work

Overall, my experience as a freelancer on Upwork as a front-end developer has provided me with the opportunity to hone my skills and to work on a variety of challenging projects. It has also allowed me to develop valuable professional relationships and gain exposure to different industries and sectors.

2021.07 - Present

Collectif Backup - Remote

I was involved in the development of a SaaS project that included various components such as marketing landing pages, a large-scale web app, an admin dashboard, and an API to connect everything together.

My responsibilities involved using my skills and expertise in React JS, Tailwind CSS and WordPress to create high-quality and engaging user interfaces.

2017.12 - 2021.07

PICAXEL - Full time

At [Picaxel](#), I was responsible for developing user interfaces for a variety of websites.

During my time there, I gained a deep understanding of front-end fundamentals, as well as web standards and principles such as pixel-perfect development, mobile-responsive design, and accessibility.

Through these projects, I developed a strong ability to handle the complexity of different tasks and problems, and to ensure that each project was executed with precision and attention to detail.

EDUCATION

03

2015-2017

ISTA - Agadir

Information Technology

SOFT SKILLS

04

Problem-Solving: A seasoned problem solver with a track record of efficiently tackling complex front-end challenges. Known for applying logical thinking and innovative approaches to troubleshoot and optimize solutions.

Collaboration: A collaborator who thrives in cross-functional teams. Proficient in bridging communication gaps between designers, back-end developers, and stakeholders, resulting in harmonious project execution.

Attention to Detail: Meticulous and precise in every aspect of coding and design, ensuring pixel-perfect execution and the delivery of exceptional user experiences.

Adaptability: Agile and adaptable, staying current with evolving front-end technologies and embracing innovative tools and methodologies. Quick to pivot and implement best practices as the web development landscape evolves.

Continuous Learning: Committed to continuous learning and professional development, keeping pace with industry trends, and proactively acquiring new skills and knowledge.

TECHNICAL SKILLS

05

Advanced Front-End Development: Proficiency in JavaScript (ES6+), TypeScript, React, AlpineJS, Tailwind CSS and advanced usage of HTML and CSS.

Modern Frameworks & Libraries: Proficiency in frameworks such as Next JS, WordPress, Sanity CMS, Shopify and PrestaShop

UI/UX Integration: Integrating UI/UX design concepts into front-end development, ensuring the alignment of user-centric design principles with efficient implementation — which results in aesthetically pleasing and highly functional user interfaces.

API Integration: Integrating third-party APIs and services into web applications. Proficient in making API requests, handling responses, and incorporating external functionalities to enhance the overall user experience.

Version Control and Build Tools: Collaborative development with Git, Github, Gitlab and Bitbucket. Experience with build tools such as Webpack and Gulp.
